3. **News from the committees**

3.1. **Senate**

- The distance situation in the lectures was discussed (distances are not always kept, mask is not worn then,
- thoska tracking is not working at the moment. In case of infection one has to report to the lecturers and they will write a mail to the whole class.

3.2. **StuKo**

- In the next meeting the chancellor and president will attend
- A survey was taken on the vaccination rate at the university. 30% of the students have participated and according to the survey 92% of the students are vaccinated

4. **News from the study programs**

- At the end of last week, the link to an anonymous pad was sent out in which students could write how they see the current situation of face-to-face teaching
- Many students used this chance and shared their opinion/perception to the FsR
- Many students would like to see hybrid teaching (especially with the increasing incidences)
- Hybrid teaching should no longer be an obstacle in the fourth "corona semester"
- In some classes, not even the teachers knew about, e.g., seating arrangements
- The control teams will change their way of working in the future and work more or send out more teams and then also check every person in the course and not only by random samples
