## 3. **News from the Committees**

### 3.1. **Faculty Council Civil Engineering**

The request of the extension of the examination period was repeatedly discussed in the FakRat. It was decided against an extension of the examination period.

In the discussion of the Faculty Council we come to the conclusion that the examination period of three weeks is suitable in principle. As suggestions the FsR holds the following:

- Use of the Thursday and Friday of the buffer week in order to equalize the period.
- Replacing individual examinations with other course work.

These goals will be further pursued by the FachschaftRat

The Vice Dean for Studies and Teaching offers further discussions on this.

### 3.2. **Civil Engineering Examination Board**

There are difficulties in the module exams Math I, II, III.

The average grades of the modules were:

Math I:

Math II: 4.4, summer semester 2.7.

Math III: 4,1

The Student Council would like to contact the lecturers in this regard. First of all, research will be done to collect constructive feedback.

### 3.3. **Stuko**

20.04.2023 Student General Assembly

07.06.2023 Meeting Weimar Triangle, meeting of the Ministers of Finance and Foreign Affairs of the nations France, Poland, Germany. A moderated panel discussion is planned for this meeting in which students can/should participate.

19.11.2023 Science Day

#### **7. search for candidates**

In order to find students who want to be elected in the coming legislative period, the FsR would like to recruit students. In this regard, it is considered to offer regular public meetings where interested parties can inform themselves.

18.04- 10.05.2023 proposals for candidacy can be submitted. A possible offer can be a "FsR-B lunch table" in the refectory. Additional dates should be offered in the M18 garden.

#### **8. election advertising**

The elections will be held from 6-8/06/2023. This requires advertising so that students participate in the elections.

#### **9. BauFak**

31.05.2023 to 04.06.2023 the BauFak will take place. Some members of the FsR Civil Engineering are considering to attend. The registration has to be done until 17.04.2023.

#### **10. accountability report**

An accountability report needs to be made. Eric and Christian will work out in collaboration with Sarah.

#### **11. miscellaneous**

A meeting with the Dean's office is again scheduled for the beginning of the semester. In addition, the meeting with the Professorship of Construction Management is still open.

## **12. dates of the next two weeks**

- Senate 05.04.2023
- Audit Committee 11.04.2023
- Fak. B Party 12.04.2023

## **13. Next meeting**

The date for the next meeting will be announced after the survey is completed.
